

# Help us help you!

Please complete this survey so that we can create better content for you!

*Use Whatsapp to receive news and information on our organization?*

*What additional content do you want Noticiero Móvil to produce more of?*

*Which platforms do you use the most in your daily life?*

At Noticiero Móvil we value our community and hope to create more programs and content that engages with all of the people who make up our great little city.

This media organization was created in order to provide more inclusive and diverse news coverage. As a local digital news platform, we strive to educate our residents as well as show how we are all connected despite our differences. By creating a bilingual news site that is for and about the Latino community in Reno, we hope to help change the narrative about immigrants and their descendants in the United States.

We strive to develop our site based on what the community wants. By responding to our survey, you can help us give you the information you want to see on the mediums you want to see it on. Scan the QR code below to access the survey. Thank you!
